

IMPACT FEE TAX EXEMPTIONS for some but not all Geriatric citizens is another form of un-just discrimination.

My name is Frank Kubic I am a retired Method Engineer. I am the father of six wonderful children all of whom work very hard. Five of them pay their school and property taxes in Jefferson County just as I do. I am a Geriatric, and I am one from The Best Generation. My name will be on the republican ballot for commissioner in November 2008, and if elected I will use my best skill and effort to terminate taxations on human nature in Jefferson County.

History Facts:
Tax ordinances created in London gave birth to the United States in Philadelphia. The craving for freedom and independence in the Slave State of Virginia, during the Civil War created the Wonderful Free State of West Virginia. Jefferson County named for Thomas Jefferson a man who loved small government; doubled the land size of the United States of America.
