

Blood Pressure Monitor Manual Inflate

Model : UA-704V

Manufacturer : Life Source

New "Mini" size
One button operation
Professional accuracy
Compact retail package
Affordable and reliable
Latex free
Irregular Heartbeat feature

The UA-704 Mini Manual Inflate is an innovative monitor that incorporates digital blood pressure technology and advanced features in a small, compact design. Included with this hand-held monitor is A&D's Irregular Heartbeat feature which allows those who have an irregular heartbeat a reliable method of taking their blood pressure at home. A manual inflate monitor such as the UA-704 offers an economical solution to those who need an accurate way to monitor their blood pressure, but without the expense of an automatic inflate unit. In addition, this energy efficient monitor can perform approximately 2,000 measurements with just one 'AA' battery (included).

Space-saver design ideal for travel

Alerts the user of the presence of an irregular heart beat during reading

Requires only one 'AA' battery (included)

Available in medium or large cuff sizes (cuffs can also be purchased separately)

Large-print instruction guide with illustrations and quick start card in English, French and Spanish

Four week blood pressure logbook included

Price : \$26.49
