Major Expansion Set

Dubuque Stamping & Manufacturing Primed for Growth

Dubuque, IA—A major expansion is set for Dubuque that will create new jobs and expanded facilities. Dubuque Stamping & Manufacturing (DSM) has announced plans to invest more than \$3,000,000 million to expand its operation.

With many blue-chip customers, including Fortune 500 companies, the company intends to build 20,000 square feet of new space and add 17 new, high-quality jobs. The company's job-growth plan represents just over a 10% increase in the number employees at the Dubuque operation.

Entering its 60th year of continuous operation at 32nd and Jackson, company officials expressed confidence in both the future and its employees. Officials were quick to note the strong work-ethic and skill level of its valued employees.

DSM's expansion is slated to begin this Summer. Located in one of Iowa's Enterprise Zones, the company is finalizing an assistance package with the Iowa Department of Economic Development.
