

Application Requirements

Resume All applications must include a resume. We prefer more detailed resumes than ones short or generalized. Applicant need not restrict the resume to one page. We want to know about applicant and applicant's experience.

References Submitting references with the application is preferred but not required. However, we will not hire anyone until a thorough reference check has been performed, so any delay in receipt of references will only lengthen our consideration of the applicant for hiring.

Application Form Submittal of the application form available online is required for civil design drafter applicants. There is no application form for other positions.

College Transcripts All applicants with less than 10 years experience after college shall submit college transcripts. We welcome transcripts from more experienced applicants. Transcripts need not be official.

Submittals Email application materials to BMoss@grwei.com.

Please, let us know from what source you learned of the job opportunity for which you are applying. Thank You.
