

YOUR MISSION IN LIFE

FAMILY LEADERS ARE SUPER SPECIAL!

EACH of our missions in life is kind of like in continual changing positions. That may sound like a strange statement, yet it is true for each of us. **PARENTS** are best at understanding this uncomfortable truth. Youngsters, as the youngest are having a hard time grasping the realism of this truth. Each child is totally dependent

upon parental provisions in their young developing life. As each age towards adult status their learning curve keeps growing into more mature adult capabilities.

Can us parents really get our **parental thinker** thinking well? This can be in our own individual life or even in the young life of each of our children's lives. All we have to do is to relive with good real memory position of exactly what did occur in prior years with our youth or even within ourselves before our individual growth! With our own individual growth, that also is changing drastically.

Can we try to remember well? Then use our memories to gain good parental insights as to our current family situation? Next both mom & dad should verbalize, with good memories, sharing together with each other. Even the negatives of past are ok to visit about. With pleasantness then good healthy decisions can be made with the two becoming ONE! Then with the 3 or more in the family good multiple life changing events as time moves on can be accomplished. Got it?

Holding times, changing diapers times, teaching walking, easy home chores, reading, ABC's plus many other good parenting teaching times are parental done. From conception on our whole life is changing, changing, and

changing. This occurs until the day we leave life on this earth. Yes, even in adult life changes keep arriving as time gently moves on. Yet, several actions stay put that do not change. Like what? Life chores are always in a continuum. Here are a few of them, but not all.

Today is the present for each one of us. Next arrival is the future. THE FUTURE, is not a surprise as it arrives directly, **NEXT!** GRANDPARENTS, PARENTS, plus all CHILDREN need to plan well ahead for the near **FUTURE.** This is mostly totally dependent upon the exact way Grandparents and Parents live 24/7 so the children are

taught well by actions. **Just nice talk without good actions do not demonstrate the truth.** Many parents do not recognize this is the finest best actions of good parenting returns. **YOUR FAMILY**, is really the finest asset each parent has to **SPIRITUALLY INVEST IN!** Do not give up as yesterday is over, done, gone, plus cannot be changed. **The present can be changed to obtain the finest of assets, dividends, with treasures any person on this earth can obtain.**

POWER IN PARENTING!

The dictionary definition of **MISSION**, is the act of sending or being sent as a representative. In each and every one of us parents that is exactly the opportunity that MOM & DAD have. Enjoying sexual union, as 2 become 1, then we have 3 or more, a miracle in itself.

Yes, this does require high moral character, dedication, consistency, courage, along with fine upstanding consistent, **PARENTING STYLES WITH CONSTANT UPGRADES FOR PARENTS TO GET USE TOO!** We are going to possess some fun with that truth in the following real discussion! The mention of UPGRADES, is

a constant feature in all of our lives so please get use to even using that term inside your family.

Mentioned before upgrades are constantly in each of our lives. Using our THINKER well each of us are challenged to individually harness each new tool well into our own being. Some new tools we need to leave alone, plus move on into a better situation. Children are totally dependent upon parental assistance for good guidance in utilizing newness well into their lives. If a parent desires to be the finest teacher, provider, plus giver of our CREATORS desires, the parent will proceed in this manner.

When each of us parent our CREATORS way super prizes begin to arrive, you cannot think of today. Multiple examples will be told of this later, that parents had no clue of what each parent was to create. Parenting well in the present deliver's assets, dividends all with surprises not thought when the parent parents well our CREATORS way. Many times, this world will go socially against good CHRISTAIN BEHAVIORS. Here then arrives another difficulty that is a constant TRUTH.

WAR, is a constant battle action with both JESUS and Satan. Here is how the real battle is happening in each

of our lives. First, the good stuff, then the negative. All a good parent needs to do is to insert this data inside their THINKER, then THINK WELL, then proceed with their good handsome PARENTAL ACTIONS. YOU & YOUR SPOUSE, can discuss that then proceed with your parental decisions. As parents are opposites (female & male) it is always healthy for each to counsel with each other so they can reach mutual consent in parenting.

CHOICES, is the first named challenges on our list of considerations. This is of the highest importance for each parent to serve well in parenting each child. Doing this teaching well will even return great dividends to the parent. This is true right inside the parents own life! Can you handle that?

In early stages of each of our children's lives, choices become evident, even speak loud even though the choice does not talk. Early on a parent knows when a child likes to be held, talked to, cleaned, even taught a new skill they could not do before. Once done, both child with parent receive pleasure on the inside of themselves. Moms understand this better than us dads.

Choices stay with us until the day we pass on from this life on earth. Our individual choices speak very loud to others even though they do not talk out loud. It alone is gigantic communication VISUALLY!

EDUCATION, is never ending in this lifetime. Most people think it does, but it does not. No one knows of the clothing styles in the near future, technological enhancements, medical gains, or even new food desires. As we grow in knowledge, we become more fulfilled. Education is a never-ending process.

CLOTHING, is a large individual choice as a child matures into mature childhood. Parents have and possess large abilities here with each of their children. Each of us love, personal nice compliments on how we look visually to others. Same with your children. Parents should try to train themselves on a regular basis how to complement their children with the truth of their appearance.

Clothing styles change on a regular basis. This also, can be a training event with children learning how to look nice.

SEXUALITY, is on a major degrading mission. Watch ads, movies, TV, even clothing style displays. Maybe the talk is not pleasant but the vision can be healthier. Many people do not say it, but their presentation is a gigantic billboard that says, **“LOOK AT ME!”**

Even when you observe this condition with your children, a good parent can politely respond. “Our family does not present ourselves like that!” Remember there is real parenting strength when JESUS thinking with good parental actions are instituted.

FREINDSHIP BUILDING, is huge in parenting availability. It really serves in two ways of parenting well. First is the friend’s parents make, especially socially. Parent’s children are exposed to their parent’s friends. How the children are treated, what they are exposed too in verbiage, clothing

FOOD, is always in changing motion. Parents do possess a good way of assisting family tradition with this one. Each of us has possession of our own personal strengths to make good decisions, then live by them. Personal courage is a good requirement to develop inside of each parent plus each child. When victory is achieved compliments are a strong medicine to deliver vocally.

Yes, this tactic of good parenting requires each parent to institute good parent thinking, then implementation with follow up into family nourishment health. The best example is the individual parent living and acting by their talk with their own personal actions. **Each parent is the ultimate important school teacher – not the public-school teacher!**

FINANCES, is a value only on this earth. Where you are going when you leave this earth money does not go! You have never ever seen a U HAUL in a cemetery. You cannot take it with you where you are going. Your LEGACY you leave behind can be much more valuable than any money you leave. Your legacy is what you taught others. Now they have the ability to live with values you had. Living a good GODLY life is sharing values other family members can gain from!

Finances, are constantly in continual flux. Housing costs, transportation costs, food variables, insurance, relaxations as in vacations, clothing's, plus arrival of items we do not think of on a regular basis that show up unexpectedly. If you cannot think of it today all you have to do is to wait, then it will show up unexpectedly. Then it is up to good parental actions for physical abilities to begin to be done.

PLAN, ACTION, SUCCESS

CONSTANTLY, requires good thinking on all family members. Yes, we error at times as none of us are in a state of PERFECTION. When we inter the knowledge of what each of us has done an action in error, hopefully this begins to happen. Recognition of the error becomes well noted in our internal emotions. Our internal emotions are what is most important asset each of us has. Complete internal pleasantness inters when we are 100% pleased with our actions in the present tense. Yes, we may possess some dissatisfaction with our individual past. But when we have tried our best to correct our past, it is then our CREATOR is finest with us! A real personal note follows, to be considered!

**PERHAPS THIS IS
THE MOMENT FOR
WHICH YOU WERE
CREATED!**

PARENT CHILD TIME

WHATEVER, your various positions are in life, YOUR PARENT CHILD TIME IS MOST IMPORTANT. Take a good look at the following. Evaluate it well for your family, then proceed with your finest actions as the most important leader of your family.

COMMUNICATION we begin with as it is most important to each member of the family. GOD delivered to each

person the wonderful ability to communicate that other animals do not possess. We talk, then listen with what we hear we our ears. Other animals can make noise, yet not as communicative as we do. Good parenting even obtains another asset not talked about much. What is it exactly? It is this that does not say any words yet without words is gigantic in communicating.

Now there is a purpose why Grandpa Jim choose this from many other pictures. Dads, each of us get good at listening to words that are said by others. This is kind of like one of our masculine techniques like we are normally bigger, stronger, and you are going to do actions my way. Well, if we use our vision, we can be informed of much more than words being said with noise.

There are only 16 pictures here, plus you cannot hear anything being said. Yet, each picture has much to say to you without words! Go ahead and take a good look at each picture and see if you can think of what is the feelings of this young daughter. If you have a good THINKER, that alone will inform you much of what is exactly inside of this good-looking child.

How is this of huge value in PARENTING? When communicating it is well when attention is given in visualization. Words do communicate well, but visualization adds more emphasis to what is being said

verbally. Eyeball to eyeball does not say words out loud, let speaks internally wonderfully well.

At times we communicate well with our eyes. Why do we choose certain colors, styles of clothing, designs, plus many more items we visually desire? We will leave this subject now for other important **MISSION IN LIFE SUBJECTS.**

HOW & WHY

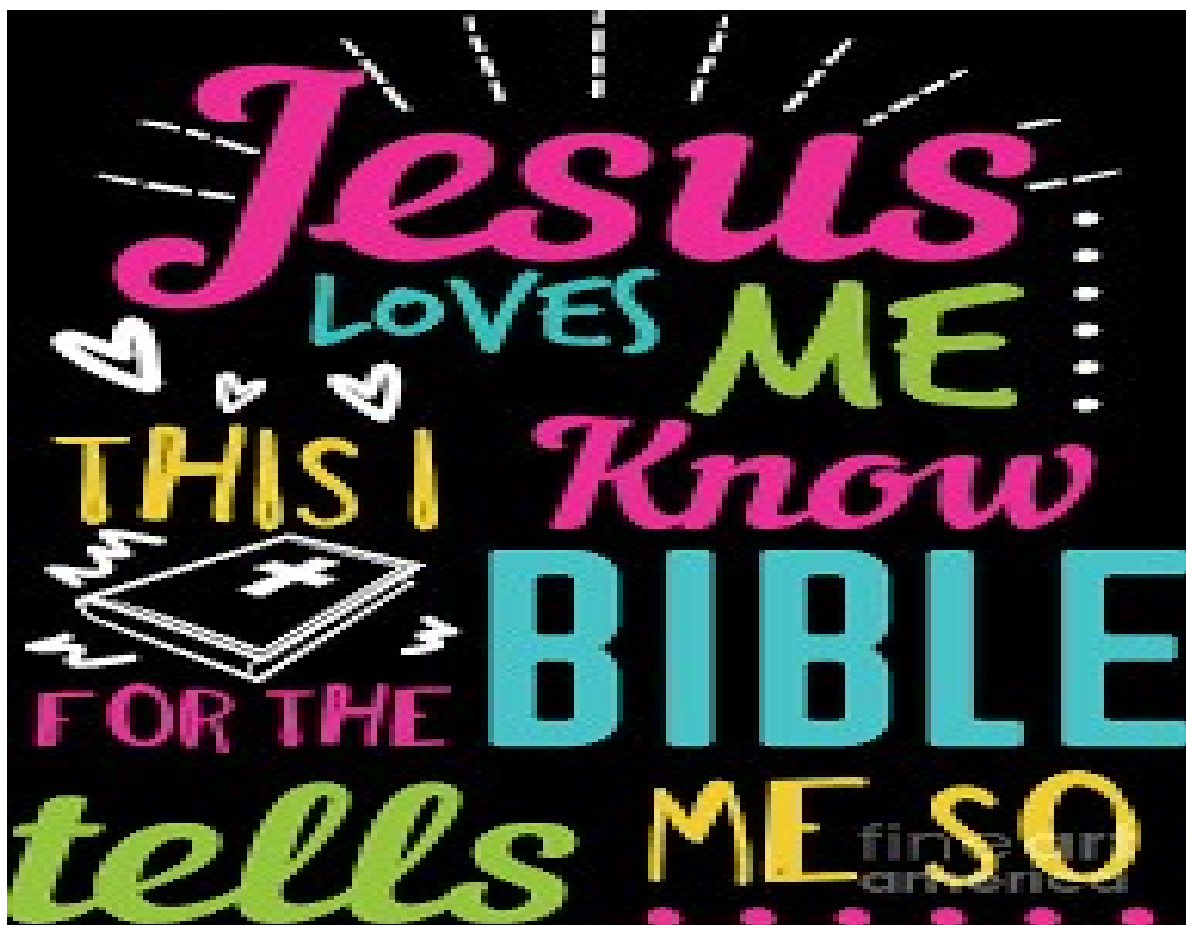

were, each of us created? Our CREATOR, GOD made Adam & Eve with a super system of creation. With the two of them becoming one, they could create three or more. Science can mathematically prove this unconditionally. No one is the same as any others. Yes, we have females, with males, two sexes that are opposites of each other. Yet they are still different from all others on this earth. That does not mean as in sex, it does mean no other person of billions of people are like them! That is proven by their individual DEOXYRIBONUCLEIC ACID, or so-called DNA. Of billions of people on earth there is no one who has the same DNA as another person. That is exactly how special you are, your spouse is, and each of your children are. There is only one person who could make up a special recipe for each of billions of people that no one can use. Now this recipe called DNA, no person can physically make it, yet they can acquire it in written form. What does that really mean to you the reader? You are super special as no other person can ever, ever be just like you or any

member of your family. Now we will visit another possibility.

Here is a family of 9. Parents has 4 by birth, could not have any more so they entered FOSTER CARE. 3 of who you are looking at are adopted. Each of the 3 were adopted before this mom and dad received them. So now decades later they are glued too, plus welded too their third mom and dad. At times it is difficult to understand each of our lives. Life keeps changing each

day. Plus, you are in charge of you as that is how you were made. You were created that way, with a decision to make that has eternal consequences. HEAVEN or elsewhere. Each of us were created the same way, with the same choices. Our CREATOR loves each one of us plus gives each of us the same decisions in life. Even if we choose not HIS WAY, HE still loves each of us ETERNALLY!

As life move on year after year in our life, options continue to change, then change more. New actions are always challenging each of us. This is powerfully true for us parents. Can you imagine how it is to affect each child as they age?

3 MAIN PARENTAL GOALS FOR EACH CHILD ARE:

RESPECT,
RESPONSIBILITY &
FUN TO BE AROUND!

These are the 3 most important parenting family goals for each family member. These 3 are also good to print up while posting them to an important place inside your home. In early life of each child, they are especially cognizant in learning. In the young early year's children are quick learners. Why not begin their early leaning with words that will benefit them their entire life? Can we take a good look at each of these 3 items to arrive at a good response of respectability of a good return?

Healthy parents invest a life time of good parenting techniques inside each of their children. Then the payoff in the future is so large it normally cannot be correctly measured. That last sentence is especially true in dollar amounts. Let us move on and take a good look at the three items mentioned.

RESPECT, is the first one mentioned. Respect arriving from a child is like this. The child is holding the other person in high esteem. This is done in a position of holding the other person in high respect or proper honor. The child is both respectful, patient, attentive with healthy expectations, coupled with high regard.

RESPONSIBILITY, can be learned at a young age as it is like dependability. Can the child be depended upon to perform as requested? Yes, this again can best be demonstrated as time moves on as a youngster moves on in aging.

FUN TO BE AROUND, as social activity is primary in each of our lives, when we are fun to be around it delivers **EMOTIONAL STRENGTH**. This is received both by the child and the receiver. **EMOTIONS**, are a strong medicine inside each person. When us parents get really well at raising our children that are fun to be around, it is like

everyone wins. Are you and your spouse a WINNER PARENT on the positive side, not the negative side?

SUMMARY!

As a parent you possess the ability to be a real HERO to your children! Maybe being a HERO is not talked about, yet it begins to show up in the life of your children. This begins to show up in social circles by their treatment to others. Polite conversations, good personal assistance to those they are in contact with, healthy communication skills, plus an slightly aggressive personality on learning more in the near future.

There is nothing more important to each child that good parenting they receive. Good decision making, good provisions, excellent SPIRITUAL SHARING, all with a gigantic PARENTAL LOVING ATTITUDE.

REMEMBER, THIS IS THE PRESENT. YOU AS A PARENT, CAN MAKE THE PRESENT BETTER THAN THE PAST!
